

netPolarity Unveils New Web Site

netPolarity.com Brings Forth Informative and Interactive Content as a Resource to Hiring Managers and Workers Seeking New Opportunities

San Jose, Calif., **November 1, 2007**—netPolarity, a leader in global workforce procurement solutions, today launched its new web site, providing a comprehensive information resource for both hiring managers and perspective candidates.

Located at www.netpolarity.com, the new site marks a milestone for the 7-year-old Silicon Valley-based company, which has grown significantly from its initial undertaking as a temporary staffing agency serving technology companies. The site is intended to showcase the wide spectrum of workforce offerings that netPolarity provides today, demonstrating its move beyond contingent staffing services into a comprehensive suite of workforce procurement solutions.

“Our company's mission is founded on providing exemplary service to both the companies we assist in their hiring endeavors and the candidates we place on their career path,” said Haixia Zhang, CEO of netPolarity. “Based on that, we truly want to create a resourceful nexus of information that gives our users a one-stop location to find the detailed information they need, as well as place a job order, make a request for service, or submit a resume.”

Among the services that netPolarity offers are:

- Contingent workforce staffing
- Pay-rolling and compliance management
- Benefits administration
- Direct hire
- Vendor Management System (VMS)
- Managed Service Provider (MSP)

About netPolarity

Established in 2000, netPolarity is a full service, global workforce procurement provider, delivering best-in-class staffing services through efficient business processes and state-of-the-art technology automation. From its inception as a contingent workforce firm, netPolarity has branched out to offer a comprehensive suite of solutions including pay-rolling, direct hire, and managed services.
